About GIPN-2026

Advancing Child Health Through
Knowledge, Innovation and Collaboration

The Global Webinar on Innovations in Pediatrics & Neonatology (GIPN-2026) is a premier international platform dedicated to advancing the health and well-being of children and newborns. Now in its 4th edition, GIPN-2026 brings together pediatricians, neonatologists, researchers, healthcare professionals, educators and students from around the world to share the latest research, clinical practices and innovative approaches in child healthcare.

This virtual conference aims to foster knowledge exchange, encourage interdisciplinary collaboration and inspire solutions to the evolving challenges in pediatrics and neonatology, ultimately contributing to healthier children, stronger families and brighter communities worldwide.
